COMMON CORE IS ONLY STANDARDS - OH NO IT'S NOT
[ARTICLE](#)

IS COMMON CORE PART OF A MUCH BIGGER ISSUE?

Yes it is!! This is why The Four Assurances of RTTT MUST be repealed.

COMMON CORE GOES GLOBAL?

Folks this did not just happen. Bill Gates signed an agreement with UNESCO in 2004. This IS a global plan.

ELI BROAD & THE BROAD SUPERINTENDENT ACADEMY

I had decided two weeks ago that it was time to do another expose' on the Eli Broad Foundation and the Broad Superintendent Academy. Then I received this Press Release about Bruce Reed becoming the new President of the Broad Foundation and had to add it to my expose. This announcement means only one thing. We will see an escalated movement to increase the number of Broad Academy graduates into education leadership roles in every state. Tennessee currently has two graduates that I know of. Knox County Superintendent Jim McIntyre. BTW WBIR out of Knoxville was due to expose McIntyre and just hours before the show was to air their station manager Jeff Lee pulled the show. WHY? What

A SAD STORY FOR MA

MA was the best in the country and it is their standards we should have emulated but of course there was no federal money attached to doing that so instead we sold our children's future for a few pieces of silver. Well the story of what is happening in MA (they too sold out for the money) is probably the saddest of all but not unexpected. Will their Governor pull the plug on Common Core? I highly doubt it and if he doesn't this is a true indication that we no longer have any

CA SCHOOL SELLING STUDENT DATA TO PAY FOR VISIT BY ARNE DUNCAN

Now why would CA need to raise money for our taxpayer funded servant to speak in CA???? There should be no fee for a visit from this man.

[ARTICLE](#)

does Mr. McIntyre have to hide?? Chris Barbic the Director of our Achieve School District (charged with turning around poor performing schools.....problem is he was not trained by Broad to turn them around he was trained to convert them to Charter Schools in order to eventually eliminate local/parental control) is a 2011 graduate from the Broad Academy. He like Kevin Huffman also worked for Teach For America.

I am attaching below the article about the new leader at Broad. Two articles that will give you understanding of the BROAD AGENDA. A picture taken outside an event I attended at the U of TN Knoxville. As you read the article about the new Director of Broad please also take note to his wife and her credentials. Remember what we are seeing in education is to promote Agenda 21. Control and inventory of EVERY human activity.

in 2007 Eli Broad Foundation and Bill Gates coughed up \$60 million dollars to create national standards. From this came "Benchmarking For Success" in 2008. The blueprint for Common Core.

The 3 largest organizations funding national education are Bill and Melinda Gates Foundation, The Walton Family Foundation (Wal-Mart) and Eli and Edythe Broad Foundation. The name of the game for these people is money, power and to advance the globalist agenda. It is NOT about improving education.

A WARNING TO YOUNG PEOPLE: DON'T BECOME A TEACHER

[ARTICLE](#)

THIS ARTICLE SHOULD GREATLY CONCERN ALL PARENTS

It appears as if colleges are starting to align themselves with Common Core and the REAL agenda. This lines up with what we are seeing in our K-12 standards with reduced classical literature.

RON PAUL HOME SCHOOL PROGRAM OFFERS ADVICE FOR ALTERNATIVES TO SAT-ACT

Ron Paul offers a free home school program. <http://www.ronpaulcurriculum.com> As we all know the ACT-SAT-GED will be aligned with Common Core. Which means if you didn't learn math the CC way you will have a very difficult time taking these tests in the future. Ron Paul offers an alternative that some know about but many forget about. There are also 3 US Colleges that allow the transfer of 117 credits. Your child can take 117 credits on line, transfer them to one of the 3 colleges then take 3 credits (capstone) with the transfer college. This is another way our kids can attend College without taking the ACT or the SAT. You can get all the help you need from: <http://www.homeschoolcollegeusa.com>

If you currently do not home school and you are concerned with the direction American public schools are taking you might want to take stock of your priorities and consider home school for your children. There are a lot of flexible options to help home school work for you and your family. Home school in the past year has skyrocketed as parents are witnessing the dumbing down of education and indoctrination replacing real education. Retired Grandparents are a good source of help. They can also volunteer to home school. Retired teachers. Think of the hectic evenings and mornings rushing around doing home work and getting ready for school. Home School can be done on your schedule. No need

for the chaotic evenings and mornings. Take vacation whenever it is convenient for the family. You can home school from anywhere. I talk to many home school parents that tell me how peaceful and less stressful life is for the entire family since they started home schooling. There is no need for kids to sit at a desk for 8-10 hours. Most of our children's school day is spent on the bus to and from school, walking to classes and wasted time waiting for other kids to get done their work or tests. You move at your own pace. Most parents spend no more than 4 hours per day on lessons. The kids are well adjusted (better than most) because they spend the day talking to their parents not texting friends on their cell phone. They test academically higher than most public school children. They are bonded and loyal to their family which is something our global environment wants to destroy.

Please share this link with your friends so they too can get our newsletter: <http://weebly.us4.list-manage2.com/subscribe?u=cd7c62a3844b03a156d2bc105&id=c022c7bec3>
