**GEE I THOUGHT TEXAS DID NOT HAVE COMMON CORE**

TX DOES have CC. Now the parents in TX are fighting to stop CC and CSCOPE.

TN also is participating in RTTT-D (D=district) 9 LEA's in TN applied for RTTT-D.

RTTT-D allows districts to by-pass the state and file directly with the federal government for money that has the very same strings attached as the state RTTT Phase 1, 2 and 3. [RTTT-D WINNERS 2012 & 2013](#)

**CHICAGO TEACHER LAYS OUT THE RAW, BRUTAL TRUTH**

Look beyond the humor of this article and you will see the raw,

**IF YOU'RE NOT OUTRAGED YOU'RE NOT PAYING ATTENTION**

**TENNESSEE AGAINST COMMON CORE CONFERENCE CALL JANUARY 6, 2014**

Starting January 6, 2014 we are going to conduct weekly conference calls to discuss strategies in order to stop Common Core during the 2014 legislative session. Without a huge show of support from the people of Tennessee I can tell you now we will NOT stop Common Core. Governor Haslam has already given his directive to the legislature. THERE WILL BE NO REPEAL OF COMMON CORE. Like I said many times we must make our elected officials more afraid of us than they are of Governor Haslam. The worst he can do to them is take away their committee seat/Chairmanship. WE can take them out of office and we will if Common Core Standards are not repealed. And we will start an all out statewide assault against Haslam. If I have to run for Governor myself we will take him out of office. Just the idea of him putting out that mandate is enough to make sure he is not elected again. SO join me on Monday, January 6, 2014 at 8:00pm EST (7:00 pm CST). I will also be sending out a

**ANOTHER REASON NOT TO LIKE TN ASD**

The Tennessee ASD was created to meet the requirements of RTTT. ASD was proposed as a way to turn around poor performing schools. But the truth is the ASD was created to convert as many traditional public schools as possible to Charter Schools. If Bill Gates decides tomorrow he wants to buy up every Charter company in America he can do it. Bill Gates, Eli Broad and Walton Foundation already heavily fund Charter School orgs. See Chart. Charters are another cash cow playing on our sympathies in order to promote them. As we get away from

**FOLLOW THE MONEY**

Ge could our Governor be motivated to move Common Core forward

about what is taking place in Nashville and the actions needed. **ARE YOU WITH US??** Then please attend our call on Monday, January 6. **PLEASE** call your friends, neighbors and relatives and ask them to join us too. The call in number is: 209-647-1600 PIN: 915138#

**COMMON CORE PETITION**

The Tennessee state chapter of **Concerned Women of America** is circulating a petition to repeal Common Core standards in Tennessee. Brenda Causey, TN State Director of CWA, is asking for our support in getting as many signatures for the petition across the state as possible. I have attached an on line petition and a PDF copy of a printable petition. It is our hope that you will take a copy of the printable petition every where you go and ask people to sign. Checking out at the super market.....ask the check out person to sign. Walk you neighborhood, take it to church, take to meetings. Take it everywhere. Brenda will be taking all printed petitions and all online signatures to our Governor when the legislative session begins and bills against Common Core and other education issues are filed.

**PLEASE spread this effort far and wide.** This single action could show our Governor how serious the citizens of Tennessee are about repealing Common Core standards. The estimated population of TN in 2012 is: 6,456,243 I would love to see at least 64,000 signatures go to our Governor. We have a lot of work to do but I know we can do it. Just keep a copy of the petition with you at all time and don't be shy about asking people to sign. Printable petitions can be made into a PDF and emailed to Brenda at: [causey11@comcast.net](mailto:causey11@comcast.net) or mailed to her at: CWA of TN, PO Box 254, White House, TN 37188

parental and local control will diminish or disappear completely. When these big corporations and foundations (in bed with the federal government) own public education completely they will dictate what will be taught. Our children will be trained to fill their future workforce needs. As of right now they can't own a traditional public school but they **CAN** own a Charter School. You need to start connecting the dots before it's too late.

**EXCELLENT ARTICLE**

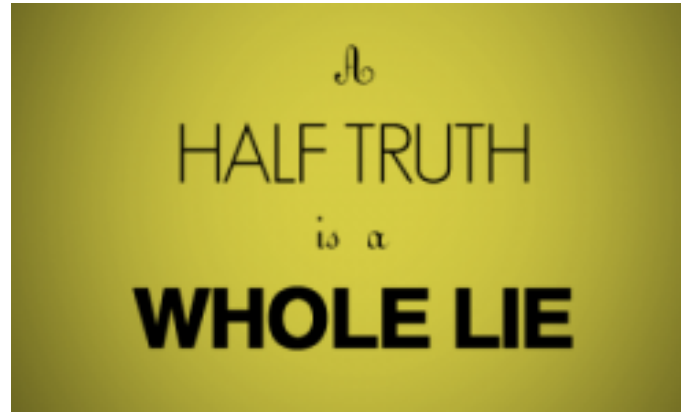

This is an excellent article about Common Core.

PLEASE share with everyone you know. Send a copy to your state Rep. and state Senator

[ARTICLE](#)

**GET2CORE.org**

This is a group that is working in TN to promote Common Core.

**URGENT ACTION ALERT**

We are being told the word is out that any bill to stop Common Core will never get out of the House Education Sub Committee. The GOVERNOR has given the order. He does not want any bills to come up for vote. He feels this will protect people from controversial votes that would hurt their elections. Sorry Governor but it doesn't work that way. If we do nothing next November we MUST make sure Bill Haslam is put out to pasture and with him will go many others. Time to clean house in Nashville.

We are also being told the members of the sub-committee are not getting any calls against Common Core. Here is the link for the list of members of the sub-committee. Click on the names and get all the numbers for their offices. We need to call their local offices as well as their Nashville office. [LINK](#)

I made a list of their names and an email list. All you have to do is COPY the email list, PASTE the

**RENEWAL OF TFA CONTRACT**

If this article does not REALLY make you mad it should. I cannot believe the things these people actually said. They are ok with the gap because Gates is funding it?? Understand TFA is meant to replace the majority of our traditional teachers. Bill Gates does not fund anything unless it is permanent and he will benefit financially from doing so. And he has two change agents embedded in the highest levels of education in TN to make sure TFA and Charters grow enormously over the next few years. Kevin Huffman and Chris Barbic both worked for TFA. We are paying a FEE to TFA to deliver teachers that are not certified to teach when we could get newly graduated teachers with a certification without paying a fee. Now why would we do this? We would do this because Gates gave them the money and Gates tells them what

Remember....who pays the bills makes the rules. Just like Charter Schools....what the government funds the government controls. And Gates is HEAVILY vested in Charters too. Arne Duncan is also HEAVILY vested in Charters. If you live in Shelby County you should be ON TOP OF THIS ISSUE. Page 80 of the RTTT Application clearly states they obligated the state to increase the number of alternative teachers from the current 250 to 1250. I can guarantee it will be more than 1250. showing. Be sure to have tissues handy. **INDOCTRINATION**  
[WEBSITE](#)

**It is very obvious that the destruction of the family and faith in a higher power has been a well orchestrated movement in America. In order to move the progressive agenda the family had to be destroyed. Until we rebuild what they destroyed we will never stop what is taking place. Strong families and faith in a higher power is what we need to fight the evil that is taking place in our country.**

**Common Core is only part of a much bigger plan but education is the key to moving this agenda forward. And to get the full story of the vehicle being used to move this agenda forward please watch the video below. Keep an open mind and you will see many questions about what is going on will be answered. At about the 20 minute mark Michael Shaw talks about education. Chapter 36 of Agenda 21 is dedicated completely to education. It illustrates how education will be the key to sustainable development and the global citizen. The Education for Sustainability Toolkit was created right here in Knoxville, TN at U of T Knoxville. It was created by a member of the UN with a \$400,000 grant from the US Dept. of Education. This toolkit clearly states that in order to obtain sustainability we must provide less education because educated people use too many resources. This is not conspiracy theory. This is conspiracy fact. Agenda 21 is deeply embedded in Tennessee and every state in America. CA was the pilot state for Agenda 21 and they are more advance than other states so we must watch them and learn from them.**
