COMMON CORE PETITION - TN RESIDENTS ONLY

The Tennessee state chapter of *Concerned Women of America* is circulating a petition to repeal Common Core standards in Tennessee. Brenda Causey, TN State Director of CWA, is asking for our support in getting as many signatures for the petition across the state as possible. I have attached an on line petition and a PDF copy of a printable petition. It is our hope that you will take a copy of the printable petition every where you go and ask people to sign. Checking out at the super market.....ask the check out person to sign. Walk you neighborhood, take it to church, take to meetings. Take it everywhere. Brenda will be taking all printed petitions and all online signatures to our Governor when the legislative session begins and bills against Common Core and other education issues are filed. **PLEASE spread this effort far and wide.** This single action could show our Governor how serious the citizens of

FERPA WILL NOT PROTECT YOUR CHILD'S PRIVACY AND NEVER DID

You need to fully understand the truth behind FERPA. It is a law that gives more freedom to the government to get data than it does to protect privacy. So don't fall victim to lies. Know the facts.

PARCC TRIAL LOCATIONS

On 01-03-2014 in response to my Open Records Request for a list of the schools that will be participating in the PARCC Trials I will receive a list of schools or a letter with the reason why I cannot have the list no later than 01-14-14.

CHARTER SCHOOLS AND NAEP

Our Governor was very quick to share the new NAEP results but as usual left the bad news out. He was quick to say the new standards were working when the new standards weren't fully implemented during the years used to calculate the scores. It is time to stop the lies about CC, NAEP and Charter Schools. See the blog from TN, an email from Dr. Tienken to me and a report by Brookings in Dr. Tienken's letter. [LETTER TN BLOG](#)

Dr. TERENCE MOORE

I had the honor of hearing Dr. Moore speak at an all day seminar at Notre Dame. Do yourself a favor and spend some time reading his articles and listening to his presentations. I highly recommend his book.

IF YOU DON'T KNOW HISTORY IT IS BOUND TO REPEAT ITSELF

How many times have you heard this statement? Well, understanding the real agenda behind Common Core does not really hit home until you start researching education history. I highly recommend becoming a member of <http://americandeception.com> Start with the 150 Education Documents. A lot of the documents are free to everyone but many are only accessible to members. The creator of this website is the son of Charlotte Iserbyt. He created this site to store many of the historical documents Charlotte acquired during and since her years in the US Department of Education. If you are a member there is an option to download every document on the website. The recommendations below are for the serious reader.

I have attached some material I think is important to read. Understand the destruction of our country has been in the works for many years and they understood the only way it would be completed is through the indoctrination of our youth. Bush Sr. brought us America 2000 (and Lamar Alexander was part of this), Clinton brought us Goals 2000, Bush Jr brought us NCLB and Obama brought us Race To The Top. All of these Outcome Based programs are not new they just build on one another to complete the circle. The link below is 46 pages in length but I provide recommendations for longer reads and a deeper understanding of what has been taking place for many years. They were prepared for the long haul.

[THE CONQUEST OF DEMOCRACY](#)

Here are some other recommendations from the American Deception website (most are too long to download to the newsletter you will have to get them from the website)

GOALS 2000 - by Kathy Finnegan The author of this book (354 pages) taught English in Russia and was shocked when she discovered the Outcome Based Education that was being implemented in America was extremely similar to the education system being implemented in America. I guess she shouldn't have been surprised because our government has been doing education exchanges with Russia since Eisenhower. Reagan was in on it too. If you remember Reagan's main campaign platform was that he would shut down the US Dept. of Education and it never happened now did it?? Ever wonder why??

UNESCO (UNITED NATIONS EDUCATIONAL, SCIENTIFIC AND CULTURAL ORGANIZATION)

In 1984 President Reagan withdrew the US from UNESCO. He did so because they were using US tax dollars to fund Communist groups. They were then and still are to this day anti-American. Yet many of our elected officials (I believe those committed to the NWO) fully support UNESCO. Bush Sr. supported UNESCO's Education First Initiative (even though we were to have no affiliation with UNESCO). In 2003 Bush Jr. announces our support of UNESCO's International Baccalaureate and reunites the US with UNESCO against the wishes of many. And in 2004 Bill Gates signs an agreement with UNESCO and part of that agreement was to support the UNESCO Constitution. Then in 2005 UNESCO declares 2005-2014 the decade of Education for Sustainability. With the full support of President Bush. Coincidence? I don't think so. If you don't think the UN is running education policy in the US then you are not paying attention. Here is a copy of a Congressional Record from 1962. UNESCO Communist leanings are no different today than they were back in 1962 except they are much stronger and more widely supported inside our own country. So putting a stop to Common Core goes much deeper than just putting the brakes on the federal takeover of education. Once they get education out of the control of local elected school

I sure would like to know.

ARE WE FIGHTING THE RIGHT BATTLE?

Many of you may have seen this movie but it is a movie we need to revisit from time to
time. And be sure to SHARE with everyone you can think of. **AGENDA: GRINDING
AMERICA DOWN**. Every time I watch this movie our country is in a different place and the
movie brings different meaning every time. I believe in order to fix education and our
country we have to fix the people in it. We need to undo what "they" have so perfectly
destroyed. And we need to start fixing in the very place they started their destruction.
THE FAMILY.

If you have never watched the movie **INDOCTRINATION** I suggest you add it to the two
movies above. If after watching this trilogy you don't see the real battle then we are truly
lost forever. This is not a free movie but it is worth buying and hosting a viewing for your
neighbors, church, family, patriot group, Republican-Democrat-Libertarian-Constitution
party meeting. Be sure to bring tissues. I have provided a link to the **INDOCTRINATION**
website.
