**Sexualizing your Children
with "Value Clarification
Education"**

The National Sexuality Standards are going to be shoved down our throats very soon and you **MUST** understand the true underpinnings of what is taking place. They will use bullying as the tool to make people comply. After all who doesn't want to stop

**IF YOU'RE NOT
OUTRAGED
YOU'RE NOT PAYING
ATTENTION**

**OH WHAT A TANGLED WEB WE WEAVE HERE IN
TENNESSEE**

Just in case you had any doubts that many of our legislators are bought and paid for just read this article. In the last election Tennessee legislators (most of them Republicans) were rewarded handsomely for their support of Ms. Rhee's

**MORE UNDENIABLE
TRUTH ABOUT "CHOICE"**

This article and the links embedded are to me the most important article to date on the subject of education reform. I strongly encourage you to read and study the information provided by Anita Hoge. If people continue to bury their heads in the sand about the true agenda behind Charters/Vouchers /Choice then we might as

bullying. They will make bullying all about homosexuality and transgender equality in an effort to make their behavior normal and heterosexual behavior evil. Be VERY aware of what your children are being taught in school about sexuality. In my opinion the school has no business teaching our children about sex and sexual behavior. Not sure if you are aware of this or not but they now classify pedophilia a sexual preference instead of rape of a minor child. PLEASE do your homework on this subject. Understand the agenda. KNOW what your child is being taught. And stand up against teaching YOUR child about sex and sexuality. That is a parents job not the job of the school.

MUST WATCH AND SHARE WITH LEGISLATORS

One of the most important 20 minutes. Dr. Peg Luksik speaks to a group in SC. She was one of the experts that spoke to our Senate in Sept Remember..she left them speechless.

progressive agenda to destroy traditional teachers and privatize schools. And she is back again in 2014 to spread the wealth. Senator Gresham, Rep. DeBerry, Senator Dickerson just to name a few received big pay outs from Students First in 2012. Looking at Students First IRS 990 form you can see a list of the campaigns in which they contributed money. Out of the TOP 15 contribution amounts 9 of our Tennessee state legislators were listed. 60% of Students First largest contributions went to Tennessee legislators. And that was the top 15 across the country not just in the state of Tennessee.

[KNOX NEWS MS. RHEE BACK IN TOWN](#)

Attached is a spreadsheet that lists all the members of the House and Senate Education Committees and the contributions (reported but not complete) from Students First. I threw in contributions from TEA too. This is not a complete list of legislators that received contributions from Students First. Students First is run by a progressive liberal Democrat. Now why would they be sharing so much of their wealth with Republican candidates? When it comes to pushing their agenda they have no problem crossing party lines. Believe me SF (like any other special interest) expects something in return for their money. SF hates teachers, teacher unions and everything about traditional public education. We all know there is room for improvement but replacing our schools with Charters and our CERTIFIED Teachers with UN-CERTIFIED Teachers from Teach For America is NOT the answer. The answer is to get the federal government OUT of education COMPLETELY and convince our elected officials by the power of the ballot box that we will no longer accept their funding their campaign by taking money (and the strings attached) from groups that hold an agenda that is diabolically opposed to conservative, constitutional values just to get elected. They need to get out and work for their donations. Knock on doors, attend Town Hall meetings and get donations from the people they serve. There are no laws being broken by what they do BUT we all know that because it is legal doesn't mean it is RIGHT. Our legislators need to start doing what is RIGHT. I have a complete list of all legislators and the money they took from SF but as stated this is just a list of members of the Education Committees. If you have an old version of EXCEL chances are you might not be able to open this file. REMEMBER Ms. Rhee IS BACK IN TOWN WITH AN OPEN CHECK BOOK.

well just leave Common Core in place and go back to watching TV. The research and the proof about the real agenda behind CHOICE is out there if people would only look at it and use some common sense while connecting the dots. Anita Hoge is not some right wing nut case. She is a respected education researcher and historian. CHOICE is part of the agenda and if we stop CC and don't stop Choice we have not stopped anything. CHOICE will continue and Common Core will come back as something else and two will meet up for the complete collapse of the system.

People are so desperate to get Common Core stopped they are latching on to political smoke and mirror games. There has not been one state Executive Order issued to date that will do anything to stop Common Core. Yet every time one is issued (Mississippi being the most recent) the press headlines it by leading people to believe the state has repealed Common Core. Unless the EO outright states the Governor is rolling back the clock and putting an immediate stop to Common Core standards the EO is WORTHLESS. Saying they are going to stop federal government overreach but still professing to move forward with Common Core is clearly sending the message that they do not believe Common Core is a federal overreach. So please be careful. Read carefully and between the lines. It was recently stated in the news that the Catholic Diocese in Wisconsin was no longer going to implement CC in the Catholic schools and that is so far from correct. They said they were going to take a look at Common Core. Here is an article about Common Core and the recent EO from Mississippi with the reality of the situation. Ever time i get one of these emails from people i hate to always be the one to burst their balloon so I will let this guy do it for me. We will face the same battle here in TN. Too much money and power but we must fight back. State run

HALF A TRUTH IS A WHOLE LIE

This blog from Mama Bears is filled with a lot of links and in order to get the entire picture I recommend looking at the links too. If you did not attend the Senate Education Hearings on Common Core then you missed the rude, arrogant testimony of Mr. Petrilli from Gates funded Fordham. Well the video in this article will give you an idea of what makes Mr. Petrilli tick.

I cannot express enough times that we are being lied to about Charter Schools. The goal of Charters is to privatize our schools and eliminate elected school boards and when that happens you will have NO local or parental control. And where will you go to complain. Ms. Rhee and Students First surely won't help you because Ms. Rhee, her X hubby Kevin Huffman and Chris Barbic (Achievement School District) are promoting this agenda. This is the FUNDAMENTAL TRANSFORMATION OF AMERICAN EDUCATION. These people are federal change agents. Please do not fall for the lies about poverty and choice. There are way too many people with their fingers in the education pie and they are pulling out huge amounts of profit for themselves. The lust for money and power that drives these people does not care about your children!!!

HISTORY OF EDUCATION

If you are interested in an excellent document by Charlotte Iserbyt tracking education up to the mid 90's please send me an email and I will send you a copy. It is 97 pages but the type is full caps, the letters are big and lots of spacing. It took me 2 hours to read, study, digest and highlight this document. It is quite an eye opener and you will recognize a lot of what we see today in this document. It documents the use of Choice/Charters to replace schools of learning with work force training centers. It also has information about Lamar Alexander in this document. It was written in 1995.

ARNE DUNCAN RELEASES DISCIPLINE POLICY

Now the federal government is going to dictate discipline for our schools? It is more like a no discipline policy. The basis is they feel minorities need to be given a pass on bad behavior. I wonder how long it will before they say this too was state led. If there is money attached I am sure the states will jump on board. Believe me there will be strings attached to "encourage" states to comply.

TENNESSEE PARENTS AND TEACHERS TO HAVE A VOICE

If you do not subscribe to this blog I HIGHLY recommend joining. Teachers and parents can send information to this blog and share with the citizens of Tennessee the truth about what is happening in our schools. Your information is NEVER NEVER NEVER shared BUT the blogs are automatically sent to EVERY state Representative and Senator, state Board of Education, Kevin Huffman and MANY MANY more (identity is stripped). This information has been going to them for a while so when they say they have no clue or they are not hearing from people that is an outright LIE. I personally send information to them all the time. And I know many others do too. Problem is they are not interested enough to read the information. They rely on leadership to tell them what to do. What to vote against and what to vote for!!! And THAT is the truth. Even as they pound their fists on their desk swearing they are not led they make their own decisions I can tell you they have their fingers crossed under the desk.

Contact your school and advise them that your child (children) ARE to be excluded from PARCC trial testings. If your child participates in a PARCC trial why are they not being compensated for trialng PARCC's product? They didn't trial the Common Core Standards they just shoved them on us. Didn't seem to bother them back when they were signing up for new standards that weren't even written but now we have to torture our kids (and take away huge amounts of instructional/learning time) to TRIAL PARCC Assessments? OPT OUT and do it now. I am supposed to get the list of participating schools by January 14, 2014 BUT there is also a good chance they will tell me I am not entitled to that list so don't wait around waiting to see if your school is on the list. Call your school Principal and follow it up with an email as your proof. Send an email and demand a positive email acknowledgement in return.
