TIME TO TAKE DOWN A POLITICIAN

One of our Plan B items was to ensure politicians that are not with us do not get elected again. We know we cannot take them all down so we need to take a strategic approach and

I know John Casey very well from his work to fight the hoax of Climate Change and Agenda 21. John testified in front of Congress on a yearly basis until President Obama was elected. His research is touted by thousands of scientists and NGSS are wrought with BAD science.

Secretive Plan Unveiled to Gradually Turn Our Wisconsin Public Schools Over to Corporations

If you think this won't happen in TN please think about it. This year we are trying to pass a bill to give approval authority for Charters to the state. We are trying to allow for-profits the ability to apply for a Charter. We have the ASD (Achievement School District) that is already targeting schools to be converted to Charters. We have federal change agents already in place here in TN. RTTT has waged an all out assault on curriculum, teachers and our schools. It is a plan that only has a happy ending for the federal government and the corporations that are in bed with the federal government.

official and work to take that person down. PLEASE visit our FACEBOOK page **DEFEAT DOLORES** and spread the word. We are starting now to make sure she does not get elected in 2016. If you have a favorite that you are working to get rid of in 2014 let us know.

BEWARE OF SMOKE AND MIRRORS

We must be very careful. These people are very crafty. Take note to the members of this committee. Linda Darling-Hammond....are you kidding me?? They will stop at nothing to make us think they are on our side but in the end we will get nothing but shut down. This is just like the Data bills that are floating around TN. They all sound great until you get to the part that says they will abide by FERPA.

I'm a photographer. This is my daughter...and this is the first photo of her that I have ever hated. #commoncore

IS THIS WHAT WE WANT FOR OUR CHILDREN? WHAT WILL IT TAKE TO MAKE PARENTS TAKE ACTION?

According to therapists across the country this scene is becoming more and more common. Mary Calamia a therapist in NY had never heard of Common Core but was suddenly barraged with a ton of new clients. Depressed children, stressed out teachers and she had no idea what was happening. It did not take her long to figure it out. The attached article explains the picture of this little girl. I have also included a testimony by Mary Calamia. This is not Russia. It is not China and I am hoping none of us want America to become either of these countries. As a matter of fact China just issued education reforms because they have finally figured out centralized top-down education does not work. See the blog that was originally written in Chinese (link included) and translated into English. UNDERSTAND.....they DO NOT want parents to be able to help their children. Extended school hours and mandated pre-K coming down the road all in order to have the child spend

FOUR TOUGH QUESTIONS ABOUT CHARTER SCHOOLS

BTW. The latest 2013 NAEP report that Governor Haslam holds up as a great achievement for TN failed to report that our Achievement Gap between students that receive free/reduced lunch and children that do not receive free/reduced lunch has grown larger (not the way it is supposed to be headed) in 3 out of 4 categories and stayed the same in the 4th category. Sorry but we are allowing these people to destroy public education under the lie of helping the poor when in actuality they are using the poor to advance the privatization of public education. You MUST stand up and stop it now before it is too late.

further away from their child's education is also part of the plan. Parents get frustrated and give up and kids no longer reach out for their help. Gotta drive that wedge between parents and children. It all started with the women's movement. Get mom out of the house. They knew they could never completely control American children as long as the family unit continued as it was. In the North when I grew up on Sunday morning our neighborhood was like a grave yard. EVERYONE was in church. Today the majority of people no longer go to church. We didn't have the problems we see today back when mothers were home and involved. It all starts and ends in the home.

DON'T FORGET

We have a legislative update Newsletter that comes out on Thursday afternoon. That Newsletter will provide an update on our Common Core legislation and action items that are needed.

We also have a conference call on Monday evening. All call details are on the Legislative Newsletter.

We are still taking donations for radio ads. I hope you heard our ads that ran on the Mike DelGiorno show.

We still have free post cards for our Governor Haslam REPEAL COMMON CORE post card campaign. Again, details and a picture of the cards can be found on the Legislative Newsletter.

And MOST important. Call your House Representative and your Senator and ask the them to co-sponsor HB2332 and SB2405. If they promise to think about it be sure to follow up with them. If you get a promise from a legislator to co-sponsor let me know and I will put their name on the list and follow up with them for you.

TNACC now has a DONATE button on our website. SHARE our website with friends, relatives and neighbors. WE MUST repeal

standards. Governing Haslam and many of our legislators are bought and paid for. We have to make them more afraid of us than Gates, SCORE or DC. We can vote them out of office and we better make sure we do just that if these standards are not repealed.
