They are trying to pull the wool over people and we must stay on our toes. But one encouraging thing that is happening in Indiana....they hired Dr. Milgram and Dr. Stotsky to review the draft of whatever comes from this committee. Now they hired

You betcha. It's all about money and always has been. Remember the same legislators in this article also have gotten a lot money from Students First. There is already a movement in Gresham's district to vet a strong candidate to run against her in 2016.

**KEVIN HUFFMAN: THE SELF ADMITTED CHANGE AGENT**

Well Mr. Huffman finally admitted what I have been saying for a long

Common Core Validation Team but elected to ignore their suggestions. So lets what happens in Indiana. But the activists in Indiana a sharp cookies and they will not be taken for fools. NY is playing games too. Their committee is made up of the same PRO CC people. Linda Darling-Hammond is on their team. That is already a doomed effort. Funny...I was talking to a legislator the other day and he asked me what we should do and I suggested TN hire Dr. Stotsky to replace Kevin Huffman!!! Maybe we should start a FaceBook page.....**FIRE HUFFMAN HIRE STOTSKY** [ARTICLE](#)

**CREEPY TESTS - PARCC**

Dr. Luksik was one of our expert panelists invited to testify on Sept. 20 before the TN Senate Education Committee. She left them so speechless they asked her not one question. Dr. Luksik has been on the battlefield fighting the federal intrusion in education for many years. Please pay close attention to what Dr. Luksik is sharing about the future tests coming our way. On TNACC website there is a video of Dr. Luksik from 1992. You would swear it was from 2014.

you know what a Change Agent in Education is all about? I was trained to be a CHANGE AGENT when I worked for Verizon. And it was how to manipulate people to do what YOU wanted. And how to "handle" the opposition. If you are interested I have included a free book available now on line about CHANGE AGENTS in Education. Charlotte Iserbyt talks about this all the time. When she was a School Board member in Maine she was sent to this training.

This short video is about data collection in Utah but what you hear on this video is the plan for every state. I bet if we started digging here in TN we would find some of these bills exist and we had no clue.

agenda. What does this mean? It means a cash cow for many organizations and they have known it for a long time. What does this mean for us? It means that as Charters replace our traditional public schools parents will have less choice and less control than ever before in the history of public education. In TN Charter schools do not have elected school boards. Once we no longer have elected representation at the local level the ability for government to completely control education becomes the intended reality. Helping the poor children was never the real driver behind Charters/Choice. Taking control of public education IS THE AGENDA. If you did your research you would find, just like we are being lied to about Common Core, Race To The Top, NAEP, TIMSS, PISA we are also being lied to about Charters/Choice/Vouchers. These three buzz words are what will drive the bus of public education to its demise. When Obama said we were 5 days from fundamentally transforming America he was not kidding around. In order to transform America the government must control education and the minds of our children. It is the key that completes the circle. Governor Haslam and the legislators in TN are one of the targeted states. WHY do you think that is? When I first came to TN I was told by many that TN is THE most corrupt state in America. I thought these people were nuts. TN?? One of the reddest states in the US? No way. Well after 3 years living in TN I sadly have to say the people that told me about TN were correct. TN is targeted because the elected officials in Nashville are corrupt starting with the Governor. When you start REALLY digging into these people the picture that you find is not a pretty picture.

**CALL THE HOUSE EDUCATION COMMITTEE MEMBERS and DEMAND they VOTE NO on HB1693** (this bill is being pushed by the left.....Duncan.....Students First...etc to allow for-profits to get Charters). The sponsor of this bill (Rep. DeBerry and Sen. Gresham for the Senate bill) have BOTH been handsomely rewarded for their support by Students First. If this bill passes you might as well hang your fight to save our children out to dry. The ONLY choice a parent will have will be home school and they will destroy that eventually as well. The goal is ONE CHOICE.....an education system that is Public Private Partnerships. Government in bed with business. Business does the dirty work of the government and government rewards them for doing the dirty work. Those that don't play go bankrupt. This is corporate fascism come to American education and it has been in the works for years. IF OBAMA AND DUNCAN ARE PUSHING
